

# Never Over You

Natalie Prass

Each day, I wait  
And the pain's always followin' me  
Oh I just want to with someone new  
Can't you see?  
And the search, no it's not over  
Until you're off and lyin' next to me  
Oh I just want to until I find a clue  
And we're back how we used to be

Oooh, oh even if I wanted to  
Oh I never ever could get over you  
Oh and now there's nothing left for me to do

Can't erase the look on your face  
As you turned and walked away from me  
Oh I, no I did not do, what you needed me to  
And that's haunting me

x4

Oooh, oh even if I wanted to  
Oh I never ever could get over you  
Oh and now there's nothing left for me to do
