

# No One Else

Natalie Walker

Butterflies  
Gravity pulls me into  
Anticipate  
Our first touch sweet and so new

Let's figure out how to make this forever  
Oh this is making me crazy  
Hey love  
I am at the point of no restraint

Lets just make a move and feel the earth quake  
It's just you and me  
And no one else  
Its just you and me

You and me  
Slowly now  
We shouldn't let this go too fast  
Bring me out of this shell

Take off my mask  
This is us intertwined and on fire  
I cannot stop  
I'm consumed with desire
