

# Over & Under

Natalie Walker

What's this  
Again  
I've heard this so many times  
What's this  
Again  
I've heard this so many times  
You're scared  
I'm tired  
I can't reach in and find  
A way to say  
This is the last time  
This is the last time  
This is the last time

You send me over and under  
Over and under  
Over and under  
You send me over and under  
Over and under  
Over and under

I've always helped you  
I've always listened  
Your words repeating  
Stagnant and distant  
Now we are stuck  
Right where we started  
Damage is done  
This is the last time  
(this is the last time, this is the last time)  
This is the last time  
(this is the last time, this is the last time)

It's gone too long  
Why don't we stop  
We can't go on  
We've hit the end

You send me over and under (and over)  
Over and under (and under)  
Over and under (and over and under)  
You send me over and under (and over)  
Over and under (and under)  
Over and under (and over and under)
