

I Can't Wait

Natalie

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

See me walking in
Yes, I'll be turning heads
Smelling so simply sweet
And making my favorite dance
I see you over there
In the corner standing down
Boy get outta your chair and follow me through the crowd, yes

Oh, oh, oh, oh...

I wanna feel your body next to mine
I kinda wanna meet, can you take?
I really wanna know whats on your mind
'Cause you know that I can't
I can't wait

I cant wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

Let's take a break
Sit down and have a drink
There's plans to make
That I know you're coming with me
I know it seems
A little bit our of this world
I've seen things I like about you
Come show this girl, yes

Oh, oh, oh, oh...

From these sexy hips
To these sexy eyes
Full lips
Don't you want to take?
When we hit the spot
Boy it's in tonight
'Cause you know that I can't
I can't wait

I can't wait until tonight

Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on

I can't wait until tonight
Where we can be alone (where we can be alone)
Boy you make me feel so right
Cant wait to turn you on (can't wait to turn you on)

I wanna feel your body next to mine
I kinda wanna meet, can you take?
I really wanna know what's on your mind
'Cause you know that I can't
I can't wait

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh

I can't wait until tonight
Where we can be alone
I'm gonna make you feel so right
Can't wait to turn you on - oh, oh
