

# Slow Dance

Natalie

Slow dance  
Slow dance, baby, rhythm make me  
Slow dance  
Slow dance, baby, rhythm make me

Tonight's the night  
Once I arrive, ladies, better grab your man  
Hold onto him tight  
Cause once I catch the vibe  
This happy beat trance goes down

You see my dancing slowly  
Your man wanna know me

No problem, don't want him, relax  
Just take his hand  
And move to the corner of the room  
Look at him in his eyes  
Ooh, do what you wanna do  
Get the beat just ride

Act like it's only you and him  
Make him forget about  
So then you'd be his private dancer  
Get his blood pumpin' faster

Slow dance  
Slow dance, baby, rhythm make me  
Slow dance  
Slow dance, baby, rhythm make me

All my ladies jump up, get ready  
Bump bump from left to right  
My silhouette's so sexy  
Curse it for every lie

The best is taking over  
Your man keeps looking over

No problem, don't want him, relax  
Just take his hand  
And move to the corner of the room  
Look at him in his eyes  
Ooh, do what you wanna do  
Get the beat just ride

Act like it's only you and him  
Make him forget about  
So then you'd be his private dancer  
Get his blood pumpin' faster

Slow dance  
Slow dance, baby, rhythm make me  
Slow dance  
Slow dance, baby, rhythm make me

I pull up in a club

I'm a classy thug, I throw it up though  
And I holla what up though (what up though)  
Now I ain't wastin' time, I ain't waitin' in line  
Now everybody follow me to the front door (come on)  
Straight to the V.I.  
She holdin' my behind  
Being who I am, I'm like what your mami behind  
What you'd think that I'd cash you up  
Nuh uh, no chance  
Turn around and hit me up with a slow dance  
Okay I see (go slow) I see the same booty shake in slow speed  
Now get low I see (go slow) I see  
Bring your A game, you know I'm a G  
You know what I need  
I wanna talk burns and bees  
I'm amazed and I don't wanna leave  
Safe LA, just go ahead and throw me the keys  
I wanna you on home with me and watch ya

Put your man against the wall  
Back off and break 'em off  
Girl, slow dance, girl  
Let your body take control  
Put it on nice and slow  
Girl, slow dance, girl

Slow dance  
Slow dance, baby, rhythm make me  
Slow dance  
Slow dance, baby, rhythm make me
