

# Kill Me

Natas

[Mastamind]

I'm wonderin should I and how could I  
Escape from the planet of the apes  
Gorilla meister, suicide's quicker  
But I'd rather beat the killer dead then dead  
Nigga body bled, red flows through the river  
When dead men float but I step through the smoke in Heaven  
It's no emergency whatsoever, so never apologetic  
It's hectic and devilish in the killin fields  
Gone take more than Michael Jackson to make the world heal  
I'm ill, so many wish for my death I feel I'm suicidal  
But I don't mess all what they want me to do is die  
So ressurect the show from related chemicals  
Mad science count it down as it rolls and it blows  
It's me, tickin time bomb walkin freely  
Through any facility, ain't no killin me  
(CHORUS) (4x)  
Niggaz kill me, they want to kill me  
They fuckin with the real in me  
They want to see the ill me  
Niggaz kill me hopin my futures lookin dim  
I just go with the flows movement of dead men don't swim  
Plus my religion, never livin in fear  
Need a witness leave one of these bitches, with chicks to volunteer  
To fuck with me never fuck with me, what it be  
I'm ready to die, my life is just a luxury  
Defended be defenseless, sweat by the minutes  
I'm sick, never drownin in my own shit  
Do or die, you came to fry, you justify  
Sticky for the niggaz who do voodoo in the sky  
This game of death we play is for killas only  
And its a bitch, these bustas runnin up on me  
(CHORUS)  
Look it, behavior sins tales to the cowardly  
Stiff enough to break in half, break off every worker on the staff  
Your last days is numbered by my wicked ways  
I hate to say it, but every step wrong ya stepped into a grave  
It never ceased to amaze me  
I gotta X every nigga who thought you lookin at? You all a crazy  
Dead men walkin through the grave zone  
I'm sick of waitin for death like I got the wrong colors on  
This ain't Killa Cali, Detroit is where I'm from  
Next gangbangin ass nigga to claim my hood won't live to see the sun  
Never thought I'd have to step in the middle a war on my block  
Killa murder plot, fuck it you  
(CHORUS)
