

# Break Thru

Natasha Bedingfield

For every taste  
For every try  
For every tear  
That never dried  
I need your touch  
For you to take  
Away the pain

Through every fall  
Through every flame  
Through every trial  
Along the way  
I hope you're there  
Behind the clouds  
Just like the sun

I'd climb to the edge of a mountain for you  
I'll go to the ends of the world to find you  
We'll dance in the shadows until we reach a  
Breakthrough  
Breakthrough  
What we need is a breakthrough  
What we need is a breakthrough

I lose my way  
I lose my trust  
I lose myself  
When I lose us  
I find my strength  
To start again  
When you're with me

I'd climb to the edge of a mountain for you  
I'll go to the ends of the world to find you  
We'll dance in the shadows until we reach a  
Breakthrough  
Breakthrough  
What we need is a breakthrough  
What we need is a breakthrough  
What we need is a breakthrough

I'd climb to the edge of a mountain for you  
I'll go to the ends of the world to find you  
We'll dance in the shadows until we reach a  
Breakthrough  
Breakthrough  
What we need is a breakthrough
