Let Me Show You (The Way)

Natasha Thomas

Let me show you the way It's a game that we play Oh everyday so easy Let me show you the way Oh just say what you say So easily

The way of your touch is always heavenly And I love the way that you are lovin' me You wrapped me up in the colour of your love You must be an angel high from above in the game of the heart You know I know that you are mine

Let me show you the way It's a game that we play Oh everyday so easy Let me show you the way Oh just say what you say So easily

Are you gonna be there when I need someone And will I be always just the only one I don't wanna have just another heartbreak So tell me is your love true or a fake in the game of the heart You know I know that you are mine

Let me show you the way It's a game that we play Oh everyday so easy Let me show you the way Oh just say what you say So easily

One kiss One love One word One vow with nothin' more One life One dream Gonna save it save it for me

Let me show you the way It's a game that we play Oh everyday so easy Let me show you the way Oh just say what you say So easily

(Show you the way) Show you the way Game that we play Everyday so easy Let me show you the way Oh just say what you say So easily

Let me show you the way
