Save your kisses for me show me how you miss me all so easily my lovin save your kisses for me cos I don't wanna be A summer love thing

The way of your touch is always heavenly and I love the way that you're loving me You wrapped me up in the color of your love you must be an angel high from above

How can I be sure that you won't go and what will be

Save your kisses for me show me how you miss me all so easily my lovin save your kisses for me cos I don't wanna be A summer love thing

Are you gonna be there when I need someone and will I be always just the only one I don't wanna have just another heartbreak So tell me is your love true or a fake

How can I be sure that you won't go and what will be

Save your kisses for me show me how you miss me all so easily my lovin save your kisses for me cos I don't wanna be A summer love thing

One kiss, one love, one word one vow and nothing more One night, one dream, gonna save it save it for me

Save your kisses for me show me how you miss me all so easily my lovin save your kisses for me cos I don't wanna be A summer love thing
