

# Suddenly

Natasha Thomas

Baby, when you're far away from me  
call me up on my cell phone  
I feel your vibrations come through the phone  
right into my heart  
If you wanna be my caller I'm  
pleased to be your receiver  
I know when my favorite-melody sounds  
that you're on the line

Suddenly, suddenly  
Something happened to me  
suddenly you appear with the key to my heart  
Suddenly, suddenly  
Something came over me and  
you set me free - You're  
The key to my heart

Suddenly, suddenly  
Something happened to me  
suddenly you appear with the key to my heart  
Suddenly, suddenly  
Something came over me and  
you set me free - You're  
The key to my heart

Until you are here with me again  
I don't mind being your call girl  
If you are alone, just lay yourself down  
in my answering-machine  
You know you can keep me satisfied  
just by being "under cover"  
there's no one I rather want to have  
inside my phone

Suddenly, suddenly  
This is pure ecstasy  
suddenly you appear with the key to my heart  
Suddenly, suddenly  
I will never be lonely  
you are my only  
The key to my heart

Suddenly, suddenly  
This is pure ecstasy  
suddenly you appear with the key to my heart  
Suddenly, suddenly  
I will never be lonely  
you are my only  
The key to my heart

You're all that I ever  
and it's now or never  
You're forever the only one...

Suddenly, suddenly  
This is pure ecstasy  
suddenly you appear with the key to my heart

Suddenly, suddenly  
I will never be lonely  
you are my only  
The key to my heart
