Money

Nathan Sykes

Hold up big baby look at you
Why ain't you smilin', why you so down?
Don't let nobody kill your mood
Just come and give it to me right now

I'll never go through, we don't stop
You look so expensive on top
Let's begin, life's never goin' free
And you'll see, with me...

You're so money, you're so money, you're so money

Why you sittin' down?
Why you sittin down honey?
When you look like money
Get up off of that, get up off of that
Get up off of that, get up off of that
Get up off of that, get up off of that
Why you sittin' down?
Why you sittin down honey?
When you look like money

More than a million in the bank
It's like I stumbled on a gold mine
I wanna know just what you think
Come over here where we can spend time

I'll never go through, we don't stop
You look so expensive on top
Let's begin, life's never goin' free
And you'll see, with me...

You're so money, you're so money, you're so money

Why you sittin' down?
Why you sittin down honey?
When you look like money
Get up off of that, get up off of that
Get up off of that, get up off of that
Get up off of that, get up off of that
Why you sittin' down?
Why you sittin down honey?
When you look like money

Let me make up your mind
Live tonight like it's now or never
Your broken wings, they need time
Why you sittin' down?
Why you sittin down honey?

Cause you're so money, you're so money
You're so money, you're so money
(Why you sittin' down?
Why you sittin down honey?)
You're so money, you're so money
You're so money

Tell me why you sittin' down?
Why you sittin down honey?
When you look like money
Get up off of that, get up off of that
Get up off of that, get up off of that
Get up off of that, get up off of that
Why you sittin' down?
Why you sittin down honey?
When you look like money
Get up off of that, get, get, get, get up off of that
Get up off of that, get, get, get, get up off of that
Get up off of that, get up off of that
Why you sittin' down?
Why you sittin down honey?
When you look like money
