

# Allograft Harvesting

Natrium

A sterilized murmur of ruptured voices  
Is what stay human  
In this systematic harvesting

Who refuse to obey  
Will be imprisoned analyzed examined  
And then forced to work  
As the request increase  
More organs will be removed and then sold  
All their organs will be removed  
And their bodies burnt

They are just human living  
Spare parts kept alive as the request increase  
More organs will be removed and then sold  
All their organs will be removed  
And their bodies burnt

Removing their hearts - kidney and liver  
Removing their lungs - blood and cornea  
Removing their skin

They are just human living spare parts  
Conscious with eye open wide  
Hearing their plans about transplanting  
Tied down and fed through nasogastric tubes  
With their urine and feces

Stripped of every organ useful for transplanting  
As the request increase  
More organs will be removed and then sold  
All their organs will be removed  
And their bodies burnt

They are just human containers

[solo a. Locci]

Worldwide organs trade  
Keep growing secretly  
Erasing every trace of  
Their allograft harvesting
