

## Brain Sight

Natrium

He's always there - where you lived him  
always ready to hit - always ready to kill  
He doesn't listen to you - your words are shit  
manifest of your life - is the war low

streets are not clean - world in my hands  
tear up the judge - brain sight

He's waiting for you - nothing can be better  
only to suffer more - another fear

Praise your gods - to save your soul
