

Inside Out

Natural

Liar, liar - I'm a liar
I tell myself that I don't need any more of your love
I can't deny you - although I try to
Even when you break my heart I can't get enough
'Cause I'm in a state of grace
As soon as I see your face
I'm in another place

Turn me inside out
Turn me outside in
Girl you spin me round
'Till I can't feel anything
Just when I think this ride
Is comin' to an end

Girl you turn me inside out again
When it's over, it's never over
Your love is like the seasons baby, it comes and it goes
You say you're leavin', but you don't mean it
You just want to play the role, everyone knows, oh...
As sure as the air I breathe
Girl it's a certainty
You're comin' back to me

With you I never ever seem to know
Exactly where I am
With you I never ever seem to know
Exactly where I stand
Every time I try to let go
You say you love me again

Turn me inside out
Turn me outside in
Turn me inside out
