

What If

Natural

When everyone talks
Nobody listens
The message is harder to hear
If nobody bends
Something gets broken
And somebody pays with their tears
If we never reach out
No one comes in
How can we change what is

What if we did
What hearts are for
Opened up every door
We could be so much more
What If we give more than we take
What If we don't turn away
We never look back and say What If

If we were one road
How far could we travel
And where would this journey lead
If we were one mountain
As tall as forever
I wonder how far we could see
If we only reach up, never look down
The dream is as close as a wish

What if we did
What hearts are for
Opened up every door
We could be so much more
What If we give more than we take
What If we don't turn away
We never look back and say What If

I try to find the answers
Beneath the wisdom tree
All alone will lead us to everything we need
When we don't know where to go, baby we already know

What if we did
What hearts are for
Opened up every door
We could be so much more
What If we give more than we take
What If we don't turn away
We never look back and say What If
What If
