

## Fallout (of Our Being)

Nausea

destitute populations  
diseased minds  
censored opinions  
dwelling on time are people really blind  
or just absent of their minds  
a continuous pattern towards  
the fallout of our very being  
and when at war  
soldier kills soldier  
it's man killing mankind  
I ask you why?  
why life must go to such a waste?
