

# Self Destruct

Nausea

Look at this world man has created  
People dependent on greed and hatred

Wars between religion  
Wars between races  
Still fighting battles  
Their ancestors started

You destroy  
You exploit  
We condone  
We self destruct

Blood money pours from every wound  
Wars for profit selling weapons of doom

Destroying ourselves  
Destroying our land  
Taking the future from our children's hands

You destroy  
You exploit  
We condone  
We self destruct

The graves of Auschwitz were not enough  
Nagasaki, Hiroshima are a sea of blood  
Did you forget Cambodia, Vietnam?  
It was miles away in a primitive land.

You destroy  
You exploit  
We condone  
We self destruct
