

Walls Of Hate

Nausea

should we just sit around
waiting for you to drop your bombs
no we won't sit around
waiting for the end to come
an opportunity to stop the arms race
we must disarm today
or destroy the human race
they're building up those walls of fear
don't let them tell you it can't happen here
they're building up those walls of hate
let's knock them down
before it's too late
we must look back
to where the race began
take back our power
our lives from their hands
enlight and unite
for others to follow
lend yourself to freedom
from awareness will come change
they're building up those walls of hate
let's knock them down before it's too late.
