

World Of No Tomorrow

Nausea

born then thrown into the pit
and taught to hate each other
we build our own pile of shit
and then we make another
we bring this upon ourselves
ignorance is bliss
we love to cause each other pain
why the fuck is this?
I don't like the shit I see
suicidal destiny
hate, despair and apathy
just maintains this treachery
then we're put into our molds
and taught our various roles
roles designed by media
created then controlled
controlled by laws and standards
rooted in normality
normality based on violence and insecurity
I don't like the shit I see
suicidal destiny
hate, despair and apathy
just maintains this treachery
world of no tomorrow
makes me fucking sick
world of no tomorrow
is ending pretty quick.
