

Come into my life

Navigators

Come into my life, I got so much love to show you
Come into my life, Boy I admire you
x2

David Jassy:

Eh yo, this girl got me curious
Eyes like brown coffee
Mysterious, plus her bodyskin got me furious, Delirious
The kind of girl you want to marry
Not a secondary

.....

Now she's very very extra ordinary
Meet her at the library, next to.....
A vocabulary.....close to a dictionary
ah, revolutionary
Besides the way she walks
It's to prove she's a pleasure
The way she talks
Leaves scars in my heart
I can't measure
The quality time she provide
Bonafine, I pray she stays by my side

Chorus

Andrés Avellan:

Say girl, you been around on my mind
All week, last night
I can't front, I couldn't sleep
Your girl told me that you're feeling so deep
And plus the eyes baby, they never lie baby
Caught them by surprise yesterday
Somehow shady
No good.....
The look she gave me was more like an invention
Can you feel it?
The energy between us, the temptation?
I take that smile as a YES
I tell you what's next
You and yours plus mine
..... a lot of success
.....
I swear I'll make more beats
To get you more.....
Can you feel it?

Chorus

Break:

Come into my life
I'll open the door for you
Come into my life
Boy I adore you

.....

Together as one not two

.....

Boy I adore you
