

# Big Boy

Nazareth

A shoe shine boy gave me a nickel  
With a smile on his face  
The school kids would give me some gin  
If I would let them in  
They were shaking all over

Ran into a friend with a lonely lady on his arm  
Woke up in my garage, I was holding my own  
Can't remember where I'd been  
I was aching all over  
From rolling on the stone  
I was aching all over from rolling on the hard stone.

Ooh, what a night you can have when you're a big boy  
Ooh, what a night you can have when you're a real big boy  
Ooh, what a night you can have when you're a big boy  
Ooh, what a night you can have when you're a real big boy

Kissin' cousins just ain't my style  
Not like some knight in shining armour  
Touring with the sideshow  
That was my blow  
But we hung on for the fun  
Lots of fun for everyone

Ooh, what a night you can have when you're a big boy  
Ooh, what a night you can have when you're a real big boy  
Ooh, what a night you can have when you're a big boy  
Ooh, what a night you can have when you're a real big boy

Till the danger man with his danger plan  
He took me aside  
And then he took me apart  
I was a young man with love in my heart  
Oh, how he made me pay  
It was the hard way  
It was the hard way

Ooh, what a night you can have when you're a big boy  
Ooh, what a night you can have when you're a real big boy  
Ooh, what a night you can have when you're a big boy  
Ooh, what a night!
