Cheerleader

Nazareth

Legs up to her shoulders All the way back down She's not playin', she knows what she's doin' And the word's out on the town She wanna be a cheerleader A cheerleader She got the moves

She got the grooves All the boys need her

Oh oh that's the way she wants to be Cruisin' the touch line at a quarter to three See her - she wanna be a cheerleader

Now shes gettin' bolder Now she gets around She's not takin no for an answer She's not getting down

She's a no teaser A no pleaser She got the drive She got the jive She's a big squeezer

Oh oh that's all she wants to be Shake a little tush for the boys to see Wanna be her - a cheerleader But what she wants the most To be the perfect host She wants to play the field all over

She needs it most of all When it's too close to call She wants to rock and roll all over Yes all over

Legs up to her shoulders All the way back down She's not playin', she knows what she's doin' The word's out on the town

She wanna be a cheerleader A cheerleader She got the moves She got the grooves All the boys need her

Oh oh that's all she wants to be Shake a little tush for the boys to see Wanna be her - a cheerleader

Oh oh that's all she wants to be Cruisin' the touch line at a quarter to three See her - she wanna be a cheerleader See - her, wanna be a cheerleader
