

Friends

Nazareth

Just sit yourself down friend
Pull up a chair friend
There aint nobody here friend
But the people you need

Roll yourself a joint friend
Empty your head friend
Make yourself at home friend
This is where you belong

Put your feet up on the fire
If it makes you feel much better
Have a glass of homegrown wine
Dont you think it tastes fine

Tear you away friend
On a planet to space friend
Faster than you can think friend
You'll be there before you know
