

Lifeboat

Nazareth

It's true
That there was support for you
When you said that you would do
All the things you are supposed to do

So why
Kiss your promises goodbye
Now you're sitting there on high

Tell me who
Said it was alright for you
To stick your nose into
Anything you want to

Then fake
It's a genuine mistake
When we catch you on the make
Big government
Look at these clowns
Screwing around
Big Government
Dragging us down
I don't wanna drown

Somebody get me a lifeboat
Because you're not getting my vote
Somebody get me a life coach
Cos you're not goin' in my file
Someone get me a lifeboat
No, you're not getting my vote

J-J-J-Jobs for the boys
Transparency
Apologies
Austerity
But you don't fool me, no

Big Government
Making up the rules
Treat us like fools
Big government
Making us pay
I don't wanna to stay

Somebody get me a lifeboat
Because you're not getting my vote
Somebody get me a life coach
Cos you're starting to encroach
Got to get me a lifestyle
Cos you're not goin' in my file
Someone get me a lifeboat
No, you're not getting my vote
Somebody get me a life
