

May Heaven Keep You

Nazareth

Beautiful - this love was meant to be
Innocent - you're always there for me
I pray you'll stay to share this life with me
May heaven keep you

I fill your days with my dependence
You fill my nights with your loveliness
I would give my soul for your protection
May heaven keep you

When we're alone
I make you silent promises
As time goes on
I hope we feel the same
All that we hold
Here safely in our keeping
What's mine is yours
I bless the day you came

Silent now - this moment's tenderness
Breathless now - you leave me sighin'
I hold you close to stop your cryin'
May heaven keep you

When we're alone
I make you silent promises
As time goes on
I hope we feel the same
All that we hold
Here safely in our keeping
What's mine is yours
I bless the day you came

When we're alone
I make you silent promises
As time goes on
I hope we feel the same
All that we hold
Here safely in our keeping
What's mine is yours
I bless the day you came

When we're alone
I make you silent promises
As time goes on
I hope we feel the same
