

Sad Song

Nazareth

Every song I sings a sad song,
Every note seems out of key,
Every line I write falls out of rhyme,
Since you're far away from me.

Every night I watch the stars fall,
Watch them till Im fast asleep,
But when Im sleeping, Im not dreaming,
Since you're far away from me.

Oh but I need you,
Honest I do,
You know that I miss you,
Ill always miss you.

Every song I hears a sad song,
Every word applies to me,
Loneliness is something I know about,
Since you're far away from me.
