Sad Song

Nazareth

Every song I sings a sad song, Every note seems out of key, Every line I write falls out of rhyme, Since you're far away from me.

Every night I watch the stars fall, Watch them till Im fast asleep, But when Im sleeping, Im not dreaming, Since you're far away from me.

Oh but I need you, Honest I do, You know that I miss you, Ill always miss you.

Every song I hears a sad song, Every word applies to me, Loneliness is something I know about, Since you're far away from me.
