

## Trouble

Nazareth

A ship comes in from Africa  
Carrying forbidden cargo  
Gonna bring somebody lots a trouble  
There's a family out in Ohio  
Gonna step on it and make it grow  
Gonna fool some people at the double  
Let it all go round  
And it all comes down  
A captain down in Florida  
Knows a man back in Chicago  
Every deal you know he's makin money  
Rico comes from Texas way  
With a senorita from El Paso  
Glad he's found the land of milk and honey  
Let it all go round  
And it all comes down  
'G' Man down in Panama  
Cuts a trail to Barcelona  
Dip-lo-matic bag will be no hassle  
Sails into the big T.O.  
Thru' the pipeline to Alaska  
She's the one in town with something special  
Maybe you maybe me maybe them  
Look at you look at me look at them  
Cut it out  
You don't need it anyway  
Sees its face in Tennessee  
Knows a place in Casablanca  
Detroit City never was a stranger  
On the streets of Amsterdam  
London town and all around us  
Everywhere we look we see the danger  
Let it all go round  
And it all comes down
