Trouble

A ship comes in from Africa Carrying forbidden cargo Gonna bring somebody lots a trouble There's a family out in Ohio Gonna step on it and make it grow Gonna fool some people at the double Let it all go round And it all comes down A captain down in Florida Knows a man back in Chicago Every deal you know he's makin money Rico comes from Texas way With a senorita from El Paso Glad he's found the land of milk and honey Let it all go round And it all comes down 'G' Man down in Panama Cuts a trail to Barcelona Dip-lo-matic bag will be no hassle Sails into the big T.O. Thru' the pipeline to Alaska She's the one in town with something special Maybe you maybe me maybe them Look at you look at me look at them Cut it out You don't need it anyway Sees its face in Tennessee Knows a place in Casablanca Detroit City never was a stranger On the streets of Amsterdam London town and all around us Everywhere we look we see the danger Let it all go round And it all comes down
