

Whatever You Want Babe

Nazareth

If you wanna walk out the door
You don't need a key
If you don't wanna come by no more
Ill set you free

Whatever you want babe
Whatever you need
Just as long as you know babe
What you're doin to me
What you're doin to me

If you wanna say it's a day
I wont disagree
I would never stand in your way
That wouldn't be me

Whatever you want babe
Whatever you need
Just as long as you know babe
What it's doin to me
What it's doin to me

I would never tie you down
Youve always been free to leave
If you wanna make it goobye
That's o.k. with me
Got so tired of asking you why
Ill just let it be

Whatever you want babe
Whatever you need
Just as long as you know babe
What it's doin to me

And if I try to find a reason
For all the things I do
Would you try to understand , the way I am
And how I care for you
Would you give me your undivided attention
And the benefit of your doubt?
Ooh!, ooh!
