

You Love Another

Nazareth

Don't wanna live she said
No more to give she said
I can't forgive she said

You love another, you love another

Can't live alone she said
Left off the phone she said
Can't face the storm she said

You love another, you love another

Don't make me cry she said
Just let me die she said
Kiss me goodbye she said

You love another, you love another

Don't take the blame she said
And I can go insane she said
Never the same she said

You love another, you love another

You love another, you love another
You love another--my heart is tearing

You love another
You love another--no longer caring

You love another
You love another--my heart is tearing

You love another--no longer caring
You love another
