

## See What You Can Be

Nazz

Let's talk about the things you wonder  
Things that you're trying to hide  
When words slip up, you drag them under,  
making me stand outside  
But from all I can see,  
you've become somewhat frightened of me  
But my thoughts run high of what we could be  
If we didn't stop to think  
of what could go wrong on our way there

I want you to see what you can be  
See what we can be if we try

Here is a thing we can't skip over  
I think you should be around  
What one can do, can two do better,  
don't try to drag the thing down  
If I thought I could be  
something more than I thought I could be  
I would take off and fly if it were me  
I don't need to be reminded  
of the things I don't believe in
