

## She's Goin' Down

Nazz

About time you took a stand  
But please don't misunderstand  
I know she won't be back again  
I think she's taken all she can

She's goin' down  
She's comin' 'round  
It's all over, she's goin' down  
She's goin' down for the last time  
Don't bother waiting for the next time around

The first time, it doesn't show  
And her kind, just come and go  
She's like a ship, a drifting free  
And now she's sinking in the sea
