

# LA NIGHTS

Ne-Yo

Yeah, yeah, yeah, yeah

Man, the sun shine bright out here (shine)  
Shawty jeans fit tight out here  
And I be high as kite out here  
Smoke good all day, all night out here  
The bad ones, man, the whole crew  
A little 1942 and it all got comfortable in the coupe, yeah, yeah, yeah

It's just another LA night  
Everybody, somebody  
Fast livin' as in if the party live, yeah, yeah  
It's just another LA night  
More stars in the night sky, I (yeah, yeah)

No dis-crimination  
All the flavors in LA  
Fellas poppin' out in DA  
'Cause you know that the chicks don't play  
Shawty by my side  
I know for sure she gon' ride  
Pull up, hop out, matchin' fly  
Killer scene, homicide, yeah  
Hopped up out the couch and kiss me, baby (ayy)  
Hurry with the bottles I ain't for waitin'  
We gon' make a scene 'cause they watchin', ain't they  
Makin' haters mad, we make a game of it  
Smokin' Louis thirteen like a baker's dozen  
You got designer everything, you know the name of it  
If you ever been here, I ain't gotta say nothin'  
You's hella pretty, hella greedy but you gotta love it

Man, the sun shine bright out here (bright out here)  
Shawty jeans fit tight out here (jeans real tight out here)  
And I be high as kite out here (yeah)

Only cash, lil' mama, do the damn thing (do the damn thing)  
Got the fellas tryna get you any damn thing that you want (want)  
Girl, say you got a man but you don't now (you don't now)  
You just like to watch 'em, get excited by the option  
And get the hopes up high 'fore you drop 'em right  
Hollywood (Hollywood), to the hood (to the hood)  
Same rule apply, hustle 'til you eat good (hustle 'til you eat good)  
And then hustle when you eat good, yeah (and then hustle when you eat good)  
Somebody said, live fast die young when you drop  
So bitches at your funeral pop

I told 'em, no, I'd rather take my time, stack mine and go out on top, ayy

Man, the sun shine bright out here (oh, oh)

Shawty jeans fit tight out here (oh, girl)

And I be high as kite out here
