

# Summertime

Ne-Yo

Lil ma, wanna come to the beach with me?  
Let's go  
Oh, woo  
Yo, let's go, hey

Summertime and it feels so good (hey)  
Summertime and it feels so good  
You got me high, dark clouds  
Raining on me, raining on me  
But you're like the summertime and it feels so good  
You're like the summertime and it feels so good  
You got me high

Running round, being famous  
Living life, living life  
Girl, I love that you're beautiful and aimless  
But something don't feel right, oh  
Why do I feel so low? (Why do I feel)  
I'm surrounded by the beautiful  
Said why do I feel so alone?  
'Cause I know there's something wrong  
Oh, I needed you

Dark clouds, for the dark clouds  
Raining on me, raining on me  
Raining on me, oh (woo)  
But you're like the summertime and it feels so good  
You're like the summertime and it feels so good  
You got me high

In the Jeep on the beach with the top down  
Hits on the radio, turn it up so loud  
So good, so good (it feels so good)  
Sun is shining on my face  
And designer be my shades  
And I'm riding with my lady  
It's feels amazing, feels amazing, ayy

(Oh, woo, here we go, let's go)

Summertime and it feels so good  
You got me high

Running round, being famous  
Living life, living life  
Girl, I love that you're beautiful and aimless  
But something don't feel right, oh  
Why do I feel so low?  
Said why do I feel so alone?  
Oh, I needed you
