

## Armamentarium

Neaera

Fit out for the dangers of our century  
It's not the time to disarm  
Arm against social decay  
Anonymity, decadence, neglect

Armamentarium  
Get armed against the poison  
Armamentarium  
The antidote is almost under way

Get armed against social cutback  
Unemployment, divide  
Arm against social terror  
It creeps through the veil of democracy

Get armed against withdrawal  
Only offence will survive

Beware of depression  
Your soul shall be a palace  
Get armed against yourself  
The roots are always within
