

# Bury You with Satan

Necro

(Yo yo)  
Bury you with satan  
(Peep the death rap)  
Bury you with satan  
Death is in your future

Im gettin outrageous on you, pullin razors on you  
Blazin on you, twelve gauges on you  
Amazin the ways I print your veins on you  
Ill warn you I'll bring euthanasia upon you  
On some shocking asia shit  
Split your face and spit on your corpse, you're a goner  
Wrapped stabbed flesh juxed quick and grab your neck  
Bludgeon you bloody, buddy you stupid what's after death?  
You must be after gettin half your body cut in half  
And after the aftermath of the bloodbath I'll have my laughter  
You stupid fucks'll catch crew cuts  
A chainsaw'll take the top of your brain off  
Stabbin the two nuts of a Ku Klux - with scalpels  
My rap'll leave you shackled  
My rap is like crack inside a capsule  
I'll shove an axe in you where your axel  
Your main point your midsection where your ribs are flexin  
Infested with injections you can't get rid of the infection  
Kid you're destined for the death  
Dead walkin, flesh exertin  
Walkin through the streets dressed - being a corpse is next  
Make a mistake a blade'll take ya life away  
Leave you decayed inside a lake and break your neck down to your spinal blade  
The gore shit I kick is sick cause I'm a bitter kid  
I'll stick and vic you bitch  
RIP you to pieces - pick you out a ditch  
Go devour dick you coward  
Catch a thousand hits around your skull  
You won't get yourself know it bitin our shit  
Niggas know who did it - kid you did it  
Kickin it like you bit it - you never lived it  
Kick in his head til it splitted  
Open and liquid soakin a hemoglobin ocean  
You're a victim, you're no one  
I see him scopin - I choke him

(Hook) x4  
Bury you with satan  
Bury you with satan  
Death is in your future

You're in for it  
My sins are horrid explore it - cause death is torrid  
You'll be dead for it - endure it  
Morbid cold like Nordic  
The hydrochloric - pour it  
Onto your arm, it's all so much it melt the skin right off it  
Right to the bone - forfeit  
I offer you morphine and a chance to escape a coffin  
Enter my auction

Become a slave I got nuns depraved  
Under my cave I got a hundred ways to murder all of you gays  
I'm ambitious for leavin you in stitches  
I won't give up hope, seeing you hang from a rope - achieve my goal  
Let the meat cleaver unfold  
You traveled a great distance  
And you still ain't sadistic - wait for assistance  
You'll hate your own existance  
Persistance overcomes resistance  
When I persist to bash my fist in your face from instinct
