

# Die!

Necro

In my lifetime I've died a few times. A couple of months ago I went out; they had to bring me back twice from death. Let me tell you something: when you die you ain't taking your wallet with you up there! You ain't even taking your underwear!

You never went to jail, you're shook from the look of it

I invented Hell when I took a shit  
My religion is music and abusing bitches  
Snitch I'll make you a eunuch, a loser dickless  
Saget of the human trafficking racket  
Beat the shit out of Jesus for being a faggot  
Skeez into techno, douchebag die  
Believe in Necro, you'll be crucified  
Beat the gospel of an asshole like Simmons  
Selling Kiss caskets harassing women  
Don't test me, finish your breath G  
My ministry is from a sinister ancestry  
? gynaecologist, fuck a female activist  
You took it in your ass by your misogynist  
? like a putrid eighty-year-old bitch  
I'll worship you like Buddhist fat gold tits

Die, die, die  
When I hurt you you die  
Die, die, die  
When I hurt you you d-

A disgrace since birth, you'll soon be dead  
The holiest place on earth is an exit wound through your head  
Don't try to enter my plain of existence  
I'll blast the center of your brain with a biscuit  
No matter what remain sadistic, maintain persistence  
Break every chain of resistance  
Any lame gets in my way in this game  
I'll make sure every vein in your frame is spritzing  
Fuck peace, you want it with me? Please  
Your seeds are now ? from Chuck Gs  
Hit like Michael Spinks with a bike link  
Attack your think hole like a ? with a spiked drink  
Had a tough career, kid I don't care  
I've been suffering for years, Hell is right here  
Shut your trap, that's enough shit out of you  
Trap you to clap you, I'll make a snuff flick out of you

[Chorus]
