

## Keep On Driving

Necro

Somebody's waiting for you somewhere down the road  
Keep on driving  
Keep on driving  
Keep on driving  
Keep on driving

In the pick up truck, sick bikers, escapees from Rikers, snickerin'  
Hicks with pitch forks, picking up Hitch-  
hikers and tricking 'em We likes it Killing live chickens with an ice pick  
Run quickly, you're in a snuff flick G  
Feed you to a pig, your wig eaten up, no need to dig  
Jigged up bleeding from you ribs like squibs  
I'll eat the brains of your kid's kids!  
Male chauvinist with a fro shall attack  
And sting you like a big cobra, slapped  
You get trapped in my crib, in your grill  
Like a jib camera, vicking you like a vig  
Shoot you up, you pukin' up uranium  
Blastin' your mom dukes in the cranium  
The insane asylum, sanitarium, off the crazy train of delirium, in the vein  
again (AAAHH!!)  
You're being chased through the forest by crazy faced coroners  
With an amazing taste for blood like tyrannosaurus  
You're exhausted, cut off your clitoris  
Divorce it from your orifice, force in a fist  
Torture with forceps  
Nauseous from horseshit, a coffin wraps your torso like a corset  
Juxed multiple times, like shrapnel inside a war vet  
A crooked cult crime  
The sultan of slime with the insulting rhyme  
Get cooked from a jolt of voltage in your spine  
Indulging the coldness, bitterness, cruelty, ruthlessness, vulgarness  
Ogrish, ghoulish, when the full moon hits  
The ultimate focus is who won't live!

You ran out of gas, on a farm road, and trespassed  
Now you're stabbed in your ass, with broken bottles  
Choking on crushed light bulbs, fill up your abdomen with glass, and bust ri  
fles  
I'm pullin' out your organs, organizing, an orchestration of gore appreciati  
on  
Depravation, give a whore a fecies facial  
Eat it raw, defication, suffocation  
You get smothered in anal, kill you like the brother of Abel  
I'll make your mother my table, then shove electrical cable in her intestina  
l navel  
You just don't get it, you're found dead naked, beheaded  
Your drowned head decapitated  
And used for bait below the sea bed imbedded  
A school of red snappers ate it then jettied  
Your corpse is a grizzly work of art  
Like a grizzly bear with a body part in his mouth eating like Sizzler  
Scissor teeth sharp like shattered mirrors  
Into your heart by the wizard of incisions  
Dead, but your nerves make you pop up like jack in a box  
Attack with an axe like a fox  
Screaming like you're typing with caps Lock on

Frightened so bad your hair whitened  
Shoved on a meat hook  
By a creep that looks like Meat Loaf  
A big oaf, a mofo with a mullet keeping your skull as a trophy  
Skin on the sofa covered in fungus growth  
Dumping you in a crawl space  
I'm an off the wall nutcase  
Rocking your face on my face, while pumping Ace of Base  
Piece by piece, disgrace your faith

They're watching you's, talkin' with walkie talkies  
Hawking you with binoculars  
They're cop killers creeping like tarantulas  
The praying mantis and chinchillas  
You go from being innocent and fearless  
To careless to brutally pillaged  
Like Todd Bridges transition from being Willis  
To shackled up in a crack house with dealers  
Cracking your back with a Black Jack 'til you Snap you spine, fractured  
Like a flashback reaction from mescaline cactus, making your back twitch  
You're ass backwards  
Warriors, the serial killer version  
Put a blade to your dome when I invade your trailer home like a military incursion  
And make you Drink your urine  
In a deserted desert, unpleasantly murdered  
Your vertebrae is some perverted peasant's dessert  
Your gizzard is a skuzzy treasuring present  
For some pheasant and buzzard  
The mutants molest at night on a nuclear testing site  
Like Wayne Newton, give you a facelift  
Lacerated with ceramic plates 'til you drip blood platelets  
Leave you anemic, self-mutilation  
While Willie Nelson is playing  
On the radio station, on vacation  
Don't take directions from a mental patient on medication  
Asphyxiation fixated on hatred  
Don't befriend a stranger  
They got hidden agendas  
Rocking suspenders  
To leave your apenix chopped in a blender!
