

# Reign In Blood

Necro

(Ill Bill)

I'm the creep I'm the master snatch the disease from the lab  
I chop my enemies in half with guillotines and laugh  
I speaks the language anguish poppin off your tops splatterin faggots  
A fuckin bloodbath of madness  
When I'm mad I throw tantrums with automatics  
Put pubescent bitches in torture adducts  
Worse than any thought you could imagine  
Kidnapped an entire school of bible kids  
The ransom is a stolen statue of black market software microchips  
I'm known to rob banks with lap tops cuz I'm home with the have nots  
Result of the drinkin blood like tampons  
We blood thirstier than vampires  
Blastin the red from head to toe spit the chrome untill my hands tired

Chorus (Ill Bill) X2:

Reign In Blood, from elacerated sky  
Blastin guns and knives a hatred that you're fascinated by  
Yo Its raining blood from elacerated skies  
Stab you in the eye fuck with me you guaranteed to die

(Necro)

I'm a robotic murderer with a computer in his spine  
My creator has programmed me to kill you with a rhyme  
Exterminate execute mangle and slaughter  
Stab bludgeon rip to pieces thats my orders  
Nothin human on earth could stop me  
A tank blasting at my chest or my brain couldn't drop me  
Adamantium armor wires and chips  
Electricity runnin through my system makes me flip  
My data base is filled with hate  
Images of serial killers downloaded into my brain by tape  
Berkewitz, Manson, Dahmer, Rifken  
Gacey and Bundy I transform in an instant  
To kill everything that lives  
I got m16's attatched to my metallic ribs  
And I'm blasting all you government officials  
To your dead tissue its raining blood kid I'll kill you

(Chorus X2)

(Ill Bill)

Swipe to kill you all strikin out like mack deception  
I bee drinkin rubbing alcohol after the Henny gone  
Morbid please slaughter sheep with walls that speak  
New York streets are like amazing walls that bleed  
Screamin like there was a crack addicted Newborn seed  
Who's crackhead mother just died during delivery  
The devils appearing bio engineering  
Bio tech its godzilla versus god at the roman colliseum  
Startin to peek want me in your apartment with freaks  
While this bitch givin you brains peep the mark of the beast  
The largest to the East where we sparkin the heat  
A bunch of undead zombies and we starvin to eat  
Two thousand and seven days it took us carvin the meat  
Pullin up in front of your crib with a car full of creeps  
Who gives a fuck if a cop is tellin me to stop or to freeze

I told them how to kill a cop so they shot the police

(Necro)

Yo my Glock will fire at your crotch I'll rip off your cock with pliers  
And strangle it with copper wire  
Then stomp it you bleed to death  
Your dead bodie starts to stink like armpits when I murder I feel pompous  
You'll get your ligaments drilled  
Battlin me is like a conflict with a convict my ignorance kills  
When I go nuts bullets enter you like cinnamon fills  
Entenmann's donuts they're delicious with milk  
Your face is suspicious with guilt you'll be viciously killed  
And your family's faces get slit and stitched like a quilt  
You'll be rockin stilts like a gimp just like Larry Flint  
Crippled with an electrical chair to be carried in  
Depressed like Rob Steiger the tiger  
Corroded like the vagina of a biker I don't like ya  
Disgusting like being forced to tongue kiss  
An old slut with no cold cuts covered in fungus

(Chorus X2)
