Blinded By Light Enlightened By Darkness

Necrophobic

```
I...
Was blinded by the light
By luminous spheres
Burning in the sky

I´m...
Enlightend by the dark
By the spirits of the night
Blinded Blackened as they rise

Them...
I´ve always felt them near
Reflected in my eyes
Like shadows they appear

Flesh...
Cancer of the soul
Vamper of the mind
Imprisoning my will

The path...
I´ve known for centuries
The flesh that clothes my soul
Was never meant to be

Dead...
Look into my eyes
Like mirrors open wide
I´m already there...
...As I walk through the gateway

...To join the dead
...So let it bleed
...I walked undead
...Now I can see

Time...
Through aeons I have walked
The paths of ignorance
Enchanted by the fire

Death...
The blade that cuts me loose
in a cloudburst I leave
Into darkness so cold

I...
Was blinded by the light
By luminous spheres
Burning in the sky

I´m...
Enlightend by the dark
A spirit of the night
Blackened I rise...

...As I walk through the gateway
```

```
...To join the dead
...So let it bleed
...I walked undead
...Now I can see
```
