

## Spawned By Evil

Necrophobic

As a cloak of darkness is streaming down  
A grayish mist hits the ground  
As Mororii leave their graves  
They suck the blood of all thy race

Communing with the ghosts of the ancient dead  
Summoning the spawn of the dark  
Bloodlust inside of me, I need to feel  
Warm human blood float through me again

I'm Mororii  
Nosferatu, spawn of the night  
You're turning pale  
Your life is fading as I suck and bite

I cast an ancient spell, raise the undead  
Out of their tombs they slowly climb  
Hunger inside of me, I'm feeling weak  
I need to feast on a human child

I'm Mororii  
Nosferatu, spawn of the night  
You're turning pale  
Your life is fading as I suck and bite

Spawned by evil  
Spawned by shadows

Lord of lords, god of gods  
Lead me to the altar  
Where the virgin waits for me  
I suck and drink from her cunt

I'm Mororii  
Nosferatu, spawn of the night  
You're turning pale  
Your life is fading as I suck and bite

I cast an ancient spell, raise the undead  
Out of their tombs they slowly climb  
Hunger inside of me, I'm feeling weak  
I need to feast on a human child
