

Splendour Nigri Solis

Necrophobic

Sex and death, sex and death wheneth Venus passing through
Inanna, Hekate, Lilitu
I shall findeth my transgression passing Babylon's womb
To let our powers commingle and accrue

Black sun, black sun, uprising blackened one
Now that Fire and aether conjoins
Conspiring laws of physics as leaving thy womb
To find insight opening Lucifer's eye

Dualistic powers crumble, nox, nox
Energies chaotic collide to tumble, xon, xon

Crude revolting powers in disharmony
Rebellious, uprising, overthrowing
Down the depths of Thagirion the uproars begun
Zomiels is revolting towards God

Niger Sol, Niger One, let rays Nigredo shine
Alluring of apocalypse soon to come
Lepaca, Lepaca, ye infinitive qliphoth dark
Appalling yet enthralling abyss deep and vast

Dualistic powers crumble, nox, nox
Energies chaotic collide to tumble, xon, xon

Splendour on every side
Fire enfolding whirlwind
Dominion dark of wickedness
The era of the wytch

Et occurent daemonia onocentauris et pilosus clamabit
Alter ad alterum ibi cubavit lamia et invenit sibi requiem

Succubus, seductress, succubus domina
Princess of hell that Magus will drain, hogtied insomnia
Sucking voracious, sucking to end
Queen domina succubus

Seven metals, seven planets, seven deadly sins
Bury my body left to rot when leaving towards the within
Splendour nigri solis infernal sulphurous
Upraises her daemonarchy

Dualistic powers crumble, nox, nox
Energies chaotic collide to tumble, xon, xon

Splendour on every side
Fire enfolding whirlwind
Dominion dark of wickedness
The era of the wytch

Et occurent daemonia onocentauris et pilosus clamabit
Alter ad alterum ibi cubavit lamia et invenit sibi requiem
