

Cut Up

Ned's Atomic Dustbin

Did you think if you shout you can sort it all out
You can't get your face from the blame
You're no wiser even know, you wish you knew why
But you're no wiser even now
They know that you're cut up
So put up or shut up
She makes you feel free and that's how it should be
You've got all this time on your hands
And yes, you want her
You feel stronger even now
And I guess you know why
Yes you want her, you feel stronger, even now
They know that you're cut up
But I told you to shut up
