

## Disaster Road

NEEDTOBREATHE

1-2-3-4

Call out to me all you can

I'll never look back

I am a man whose soul got caught in the tracks

With darkness approaching it's not my heart that wants to go

So excuse me darlin' while my heart explodes

I'm in a cage I've chosen, cause it feels like home

I should have seen this coming a million miles ago

I've been blindly running down disaster road

Sing to me your sweetest song, it could be my last

My fate is myself alone and I'm headed there fast

With darkness approaching it's not my heart that wants to go

So excuse me darlin' while my heart explodes

Now the prize is empty, but my eyes have grown

So excuse me darlin' while my heart explodes

I've spent my whole life paving this disaster road

So excuse me darlin' while my heart explodes

I'm the cage I've chosen, cause it feels like home.

I should have seen this coming a million miles ago

I've been blindly running down disaster road
