

## Knew It All

NEEDTOBREATHE

Don't look back now,  
We thought we had it won.  
And all that we've left,  
Is the smoking of a gun,  
Fear is not the only device,  
That loneliness could leave us to fight.

Cause you're gone (gone, gone)  
I told myself that you could be the the one,  
But you're gone (gone, gone)  
And I knew it all along.

My heart was kept,  
Far from the place you left,  
My eyes have seen,  
The favor move from you to me,  
Fear is not the only device,  
That loneliness could leave us to fight.

Cause you're gone (gone, gone)  
I told myself you could be the one,  
But you're gone (gone, gone)  
And I knew it all...,  
Ooooooh, It's alright, it's alright Cause you're gone (gone, gone)  
I told myself you could be the one,  
But you're gone (gone, gone)  
And I knew it all along
