

## Quit

NEEDTOBREATHE

Tell me do you feel it  
Feel it when your heart starts letting go?  
I'm unsure now if I could ever tell you no  
I've been seeing traces of everything I used to know was right  
I can't leave now  
I need you to remember  
'Cause it's not like all my love was understood

Don't just tell me that it's over  
I want to know how we can make it  
I know I'm lost  
I know I'm lost but not forsaken

Tell me do you want it  
Want to make your heart stop goin' down?  
I'm unsure now if we could ever make it out  
I've been seeing traces  
Of why I wanted to be in this life  
I can't leave now  
I need you to remember  
'Cause it's not like all my love was understood

I'm not giving up,  
I'm not laying down,  
I'm not leaving without you  
'Cause we're all the same  
We all need to stay  
When they tell us that we're through

Don't just tell me that you quit now  
Don't just tell me that it's over  
I know I'm lost  
I know I'm lost but not forsaken
