

You Are Here

NEEDTOBREATHE

I could give just one more chance
If I thought that there would be romance
Seas of everlasting grace
Fall down upon this sinner's face tonight

I see clearer all I wanted
The time is right I know it
You are here
And You find out all the pieces
The time is right I know it
You are here

One last reason to exist
Is the thought that you'd get over this
Words forever left unchanged
And from Your lips the sinner's saved tonight

I see clearer all I wanted
The time is right I know it
You are here
And You find out all the pieces
The time is right I know it
You are here

You find out all the pieces
Give me away now, take me down
You find out all the pieces
Give me away now, take me away

I see clearer all I wanted
The time is right I know it
You are here
And You find out all the pieces
The time is right I know it
