

## You Are Here

NEEDTOBREATHE

I could give just one more chance  
If I thought that there would be romance  
Seas of everlasting grace  
Fall down upon this sinner's face tonight

I see clearer all I wanted  
The time is right I know it  
You are here  
And You find out all the pieces  
The time is right I know it  
You are here

One last reason to exist  
Is the thought that you'd get over this  
Words forever left unchanged  
And from Your lips the sinner's saved tonight

I see clearer all I wanted  
The time is right I know it  
You are here  
And You find out all the pieces  
The time is right I know it  
You are here

You find out all the pieces  
Give me away now, take me down  
You find out all the pieces  
Give me away now, take me away

I see clearer all I wanted  
The time is right I know it  
You are here  
And You find out all the pieces  
The time is right I know it
