

Dream Flowers

Negative

Nobody's ever gonna smile
When it's time to say goodbye
No idea in this world
My head is empty if I don't want it to be
The time has come, the countdown has started
I've got to go only god knows where
Easy come, easy go
With no destination
Now I know

The world is too small for me
I don't belong in here
I wanna say goodbye to myself for the last time
I belong somewhere else, I know it's time to go my friend
I open my eyes and I see dream flowers.

Your eyes&
I can't forget how your face reminds me of all the feels I feel
'cause we have saying everything is my fault until the final destination
I'll let you know

The world is too small for me
I don't belong in here
I wanna say goodbye to myself for the last time
I belong somewhere else, I know it's time to go my friend
I open my eyes and I see dream flowers.

Dream flowers in my head
Dream flowers everywhere
and I know, I know, I know, I know&

The world is too small for me
I don't belong in here
I wanna say goodbye to myself for the last time
I belong somewhere else, I know it's time to go my friend
I open my eyes and I see dream flowers.
